

Practical instructions to make proper waste separation easier

In Trento, door-to-door pick-up has begun! Here is a list of the types of waste that need to be separated as well as the appropriate containers to be used.

The containers are to be left outside your home, on the side of the road, until the pick-up service has come by and then they are to be retrieved after they have been emptied. This is to be done according to the calendar that will be delivered to your home, along with the bags and the containers.

material collection centre

centro raccolta materiali (CRM)

Gardolo: Via Bepi Todesca, 10
Meano: Via Bellaria

(opening hours can be provided on your calendar)

Any bulky items or material that do not pertain to the separation chart, can be dropped off free of charge:

- used clothing
- electrical electronic appliances
- paper
- cartons
- inerts in small quantities
- bulky material
- (treated and non treated) wood
- metals
- plastic
- tires
- hazardous municipal waste
- branches and plant trimmings
- glass sheets

All citizens of Trento have free access to the other MCC located within the municipal territory.

Door to door waste pick up
is a winning solution.

A TRENTO

la differenziata bussa alla porta

versione inglese

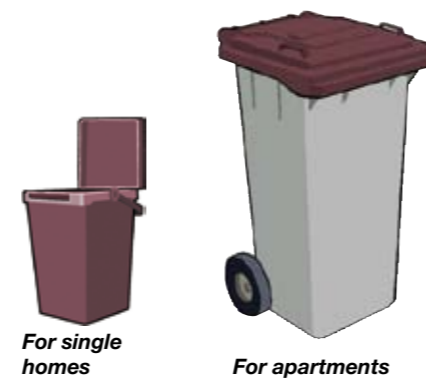

The new separated waste collection system will soon become part of a daily routine that all residents will be able to manage: of course, in order to use the system more easily, it must be fully understood. For this very reason, in the hopes of helping all co-citizens and residents, we are providing informative material to use along with what has already been provided in Italian. This can be used to help better interpret the different types of waste and the new collection system. We are counting on everybody's collaboration, so as to safeguard our city and the environment we live in. Thank you
